<b>Base-Line CTP Deletion Pens</b>		
<i>This pen is designed to remove images from CTP, long-run and fast-exposure metal plates. The pen features either a unique 3-tip barrel with fine, medium and broad points, or a single fine/bullet tip. One pen removes images from web and sheet fed metal press plates.</i>		
CTP Deletion Pen (3-tip – Fine, Medium & Broad)	CTP-1000	25.00
CTP Deletion Pen (Single Tip - Fine/Bullet Tip)	CTP-1100	13.00
<b>Base-Line Long Run Addition Pen</b>		
<i>This pen is designed to add images to all types of metal plates, from analog to CTP. The pen utilizes a two step process. The Prep tip is used to prepare the plate surface. The pen features two addition tips for adding an image that lasts for hundreds of thousands of impressions.</i>		
Long Run Addition Pen (3-tip - 1 Prep Tip & 2 Addition Tips, Fine and Medium)	CTP-2000	25.00
<b>Base-Line E-Stat Combo Pen</b>		
<i>This pen contains both addition and deletion fluids to make corrections on all liquid and dry toner electrostatic plates. The pen has 3 tips, one wedge shaped tip for making all size deletions and two addition tips for fine and medium additions.</i>		
E-Stat Combo Pen (3-tip - 1 Wedge Point Deletion Tip & 2 Addition Tips, Fine and Medium)	ELECT-7000	25.00
<b>REL Opaquing Pens</b>		
<i>Dense opacity, dries fast even in high humidity, will not stick to glass or flake off due to heat or aging. Our Opaquing Pens are available in five thicknesses. We also offer two brush point pens for heavier opaquing, and an economical twin-point opaquer.</i>		
Opaquing Pen .005 - Micro Fine Point Black	OPAQU-3999B	12.62
